Late Shri Puran Singh Nain

Puran Murti Educational Institutions under the aegis of Puran Murti Educational Society is one of the premier group of institutions in North India which is imparting quality education. The founder of Puran Murti educational society is Dr. Vijay Pal Nain. Name of the institution is inspired by the two great legends Mr. Puran Nain and Mrs. Murti Nain. Dr. Vijay pal Nain has given the name to the institution in the honour to his father and mother. Mr. Puran nain, this name is taken with high respect and great esteem by people at large due to his unselfish service to people. Puran Murti Campus is built in synchronization with the vision given by this great statesman. He is visionary and noble man, who has worked for the society unconditionally. He is a true social worker.

The practice of social work requires knowledge of human development and behaviour and to be more sensitive than others. Being a responsible citizen, he is having that sensitivity which make him to live for others. Whenever it is possible, he reach out and try his best to help the people. Blood donation camp, charity, free education for poor girls, to aid people in poverty are his common works to do for society. Mr. Puran Singh Nain is the person who inspires Dr. Vijay Pal Nain to dream to establish a institute where quality education can be given to the students. So that they can work further for the betterment of nation and the dream comes true with the establishment of Puran Murti Campus, which is the best place for Education in India.

Smt. Murti Devi Nain

In association with her husband, Mrs. Murti Nain is a social activist fighting for civil rights and for betterment of rural peoples. She is one of the strongest pillars for her husband to become well-acclaimed social activist.

Mrs. Murti Nain is well known and respected for upgrading the ecology and economy of the village Kami which is located in the Sonapat district of Haryana state.

She puts a lot of hardships and it has become difficult to make both ends meet, as prices of essential commodities are rising constantly due to corruption. She believes that our freedom is at the teeth of danger due to corruption and unless it is eliminated, the country will not be free in its true sense. Therefore, a peaceful war has been waged against corruption with the help of immense support from people. Mrs. Murti Nain has also work for the social empowerment of women. She believes that women are as talented as men. Women should be allowed to go for higher studies and it encourages women to show their talent which will not only benefit her individually but to the whole world at large.

We are proud to have such a down to earth person who dreams big and fly high to achieve it.

“Education is the key that unlocks all the doors.”

Little Secret of Success

**“If a drop of water falls in a lake, there is no identity.
But if it falls on a leaf of lotus, it shines like a pearl.
We need to choose the best place where we can shine.”**

PURAN MURTI CAMPUS

vision

The Institutions have a vision to provide value-based education by imparting engineering and technical skills among students to steer in the field of Software, Aviation aspects, Telecommunication, Pharmacy Manufacturing, Construction, Architecture, Power generation, Service and Research organizations of the country to meet global standards.

mission

To grow as centre of Excellence in engineering and technology with emphasis on academics, training, research and compatible infrastructure. Instituting technology exchange programmes with globally renowned universities / Institutions.

About the Institutions

Best Engineering College Delhi-NCR.

- Puran Murti Campus is one of the reputed institute in Delhi-NCR.
- The institution always has been committed and responsive towards the needs of modern technical education.
- Puran Murti Campus established by DCE Alumni, with a mission to create sensitive and responsible generation of entrepreneurs, inventors and technocrats.
- The institute possesses latest equipments & resources and purpose is to achieve new heights in teaching & research.

Get the right tools to Succeed

- The institution was established under the aegis of Puran Murti Educational Society.
- The President of the Society is Doctorate in Engineering, post graduate in Electronics and Communication Engineering from Delhi College of Engineering, Delhi. Members of Society have more than 15 years experience in the field of Engineering Education.
- Puran Murti Campus was established with an objective to develop the technical education and industrial research. Subsequently, basic infrastructure with all facilities, was developed.

Facilities For Students

- Separate Hostel for Boys & Girls
- Wi-Fi Campus
- Fully Equipped Computer Center
- Conference Hall with Modern Setup
- Library
- Dispensary
- Games & Sports- Courts for Basket Ball, Volleyball, Sports Track, Football, Badminton, Table Tennis, Hockey, Cricket, Throws and Jumps
- Gymnasium
- Seperate Cricket Academy with international level pitches
- Transportation from Delhi-NCR, Rohtak, Panipat & Baraut
- Cafeteria with modern amenities

Location How to Reach

- About 4 km from Gohana bypass (opp. Hotel Park Blue) located on NH-1 near Murthal flyover.
- About 4 km from Sonapat Bus Stand.
- About 300 Mtr. from Sandal Kalan Railway Station (Next station to Sonapat towards Panipat). For details of location, please see the location map on the last page.
- One can reach the institute by Bus, Train as well as by other Public & Private means of transport.
- 30 Min. Drive from Jahangir Puri Metro Station
- Our Buses Cover all the areas of Delhi-NCR, Rohtak, Panipat & Baraut

Alliances

All Courses are approved by
AICTE, UGC, NCTE, PCI &

Our campus...

- Puran Murti Campus has been developed as a neat, clean and green campus.
- Extending into a vast area of lush greenery, the campus of the Institute is imaginatively laid-out with a picturesque landscape.
- It presents a spectacle of harmony in modern architecture, and natural beauty which enthralls and inspire students to learn more effectively.

"Student's Friendly campus life with excellent eco friendly environment and the best result in exams"

"Students from all the parts of India and neighboring countries join Puran Murti Campus to excel in their career and serve their respective country with excellence in technical education."

100% overall satisfaction score

"Many years of sustained academic excellence have seen the institution established itself as one of the premier place of learning for Aviation, Engineering, Medical in particular."

Message

President's Desk

*“If your actions inspire others to dream more, learn more,
do more and become more, you are a leader.”*

Firstly, I would like to congratulate you to be a part of the Puran Murti family. We are thankful to all freshers and their guardians who have shown trust and confidence in us. We ensure you about our commitment to provide the best available facilities and services within the campus and outside. We are conscious about the quality value addition and right placements through our strong collaborative teaching learning process and Institute-Industry relationship after completion of your stay in the college campus.

The infrastructure developed so far is more than the requirements of AICTE, UGC, NCTE, PCI and NCVT norms, it reflects our dedication, commitment and strategic vision to lead the institution towards new heights and success in near future.

In order to fulfill the Dream of Dr. A.P.J. Abdul Kalam, former president of India to make India developed upto Year 2030; a huge requirement of technically equipped manpower is needed, in near future. To make our villages and towns more developed and equipped with all sort of infrastructure, facilities and amenities like that of Europe and America, India needs five times more technical manpower than existing one.

As most of you are aware that the last two decades have witnessed tremendous development in the field of construction, manufacturing, communication, computers, aviation and architecture design. The growth in these fields has been phenomenal owing to instant access of information through internet and variety of communication media available at present. There is an ever increasing demand of highly thoughtful technical manpower to meet the challenges of the technical growth in 21st century. Our institution wishes to make its significant contribution in this direction.

To achieve this we have created state-of-art infrastructure, laboratory facilities and highly qualified and experienced faculty to impart quality education in the field of Engineering, Aviation, Architecture design and Medical. We are committed to give our students exposure to the latest in these fields. I strongly feel that the growth of any institution is linked with its intellectual capital and with its infrastructure. We will continue our efforts and move forward to acquire them.

Dr. Vijay Pal Nain

President
B.E (Hon.), M.E (DCE, Delhi), Ph.D, LLB
Puran Murti Educational Society

Chief Executive Officer (CEO)

As we step into globalised techno dominated society, the educational experiences need to be revisited on the basis of the fast changing present and an awesome uncharted future. Science and Technology have brought in a sea change in the world. India has carved a niche for itself on the global front and is respected by even the super powers for this achievement. The thirst to grow more is not only the need of the hour but is also a condition for maintaining the present growth rate.

We are committed to provide best possible industrial training and placements for our students, through our strong relationships with industries and global service providers. For this we have dedicated Training and Placement cell that constantly works to develop and maintain the relationship with various Indian and multinational companies.

The campus boasts pollution free and hygienic conditions that help the student to maintain their health and enhance their physical and mental abilities. Different kinds of games & sports facilities are also available in the sprawling play ground. We have developed the ragging free environment where all students support each other in academics.

At last I wish all the students for a golden future and great success in all sphere of life.

With Best Wishes

Kapil Bhatia

Chief Executive Officer (CEO)
B.E, M.Tech, MBA, LLB
Puran Murti Campus

International Relations Officer's Desk

It gives me immense pleasure to Introduce Puran Murti Campus to International perspectives and specially to international students with a very strong drive to enlighten themselves with core engineering knowledge. It was established with a pure and genuine motive to award quality and affordable education to the unreached groups who are desperately seeking to acquire a degree, which otherwise would cost them their life's earning. Since its inception, Institution has bagged numerous National and International awards for Infrastructure, Placement, quality of education etc. I myself being serving Puran Murti Campus as an international relations officer is well aware about the need and demands of Students and keeping this in mind I highly recommend International students to Puran Murti Campus as it caters to their wish, desire and hunger for knowledge. The fact that International students are already acquiring their valuable degree from Puran Murti Campus clearly bolsters this fact and I can see them as an unstoppable force of the coming future.

Sanjay Ghimire

International Relations Officer
Puran Murti Campus

A portrait of Dr. Vijay Pal Nain, a middle-aged man with dark hair and a goatee, wearing a black short-sleeved button-down shirt. He is standing outdoors, leaning against a green pillar on the left, with his arms crossed. The background is a blurred green landscape.

- A Diverse programme of studies
- Classes & workshops with visiting professional companies in the field of engineering, Aviation, Pharmacy/Medical & Management
- Scholarships for students
- Research Facilities & much more

Department of Aeronautical Engineering

"Just a few words about Puran Murti Campus. It is the best campus. Teachers are so helpful to me without delay, whenever I need their help. They make me feel like my home. The facilities are just miraculous. I'm so grateful that I got opportunity to come here. " I would recommend Puran Murti Campus to everyone for their career. "

HIMANSHU SHARMA
AERONAUTICAL ENGINEERING

"It has been an awe-inspiring experience to study in PMC so far. PMC has mentored me all the way through to acquire the necessary qualities to excel in this competitive world. The virtuoso faculties have extended the best possible support and guidance which has further enriched our learning experience in this college. I am thankful to PMC for helping me become efficiently skilled in my field of study and evolve as a better person. Thanks to Puran Murti Campus. "

KHALID NISAR
AERONAUTICAL ENGINEERING

PURAN MURTI CAMPUS

Leader in B.Tech Aeronautical Engineering & Diploma Aircraft Maintenance Engineering in India

About B.TECH In Aeronautical Engineering

We are happy to extend an invitation to you to become a member of the academic family of Puran Murti Campus and move towards a bright future and academic success. Aeronautical Engineers are involved in all aspects of the design, development, manufacture and operation of Aircraft and associated systems and components. The wings of modern Jet airliner are designed by Aeronautical Engineers and it is an Aeronautical Engineer who will carry out the ground test on new engines. Aeronautical Engineers will also analyze the flight test data for a new supersonic fighter and it is also an Aeronautical Engineer who will be responsible for the maintenance of a helicopter's under carriage leg. Candidates who have passed Bachelor of Technology in Aeronautical Engineering of the college are eligible for relaxation of 12 months experience requirement for the Aircraft Maintenance Engineers License as required by the Director General of Civil Aviation, Ministry of Civil Aviation and Govt. of India.

Aeronautical Engineering Courses imparts multi-face training to students in areas like manufacturing and development of aircrafts and missiles. An Aeronautical Engineer can also design, test and contribute to the development of advanced technologies in the field of defence and space science.

Infrastructure

All these establishments are very much coordinated with each other to accomplish the task and provide every possible help to each other. This is the main advantage to the Aircraft Maintenance Engineering College. Beside this, the Campus has its own required and approved infrastructure in the Aircraft Maintenance Engineering workshop for imparting standardised practical training to our Aircraft Maintenance Engineering Students. College workshop consists of different shops such as Machine shop, General Engineering shop, Welding shop, sheet metal shop, Engine Shop, Airframe Shop, Electrical & Electronic Shop, Carpentry Shop, Hardness Testing Shop, and Various operating Mock-ups for demonstration purposes. The Institute has its own fully serviceable all metal Light Aircraft for on Job training. The Institute has enough number of Cessna Aircrafts and different type of Jet Engines and Piston Engines for imparting practical training to its students.

Department of Automobile Engineering

Department of Agriculture Engineering

1st CNG Bike in India, Hybrid Scooty, Special multi-fuel car & special bike with four wheels developed by our auto mobile students.

In this modern age of time, there is a rapid expansion of Automobile Industry in India and setting up of many MNC's, which results in a huge demand of expert Automobile Engineers to catch up with the pace of its growth and necessary supply of Automobile Engineering.

■ Puran Murti Campus is a premier Engineering college for Automobiles in Sonapat. We are different from other Engineering institutions as we dream to be one of the top research institutions with a vision to create a knowledgeable society. Automobile engineers design, test, develop and manufacture automotive products such as heavy and light vehicles. They help the automotive industry to meet new challenges, for example, making sure that vehicles are safe, eco friendly and fuel-efficient. They work not just on cars but also on commercial vehicles as buses, coaches, tanks and racing cars etc.

■ Career Scope & Placement Prospects:

Considering the wide scope of Automobile sector, it is not surprising that more and more candidates are dreaming to develop a career in Automobile Industry. Now, with so many foreign automobile companies like Volkswagen, Audi, Renault etc. targeting India as a base for manufacturing cars, the scope for a career in Automobile Industry is rising rapidly.

“ I am a student of Automobile, in Puran Murti Campus. There is a common perception that newly established colleges often lack in infrastructure and facilities required to study a B.Tech course. However, in our case though the college came into existence in 2008 only, this perception proves to be a myth since the Institute provides the best classroom facilities and up-to-date practical laboratories which is helping us to get trained with the essential skills required to excel in the industry. ”

Department of Civil Engineering

As the only joint department of architecture and civil engineering in the India, we are uniquely placed to educate our students in all facets of civil engineering

- Civil engineering is the design, construction and maintenance of bridges, roads, railways, airports, tunnels, canals, dams, offshore structures and buildings. It provides the sanitation and clean drinking water that are the fundamental requirements for health.
- An industrial placement option enables students to gain valuable experience with a variety of companies at the forefront of the discipline.
- Excellent design studies and laboratory facilities (structures, hydraulics, soils, natural building materials, timber workshop) together with an adjacent outdoor test facility.
- 80-90% of our graduates go on to work in the civil engineering profession every year, with the remainder going into related employment or further academic study.
- Rapid development in the infrastructure in India and construction of new innovative projects like Metro Rail, Flyovers has resulted into a mega boom in the demand of qualified Civil Engineers.

Department of Electrical Engineering

Demand for Electrical devices is increasing rapidly and Electrical Engineers are in great demand to meet the requirement of growing industries like NTPC, Power Grid, BHEL & NHPC etc.

Welcome to the largest department of Puran Murti Campus which offers B.Tech & Diploma in Electrical Engineering. The department of electrical engineering has been playing a vital role in producing scientists and technologists of highest caliber. The department has a rich tradition of teaching & research and is widely recognized to be a pioneer in Electrical Engineering education in India. The research interests of the faculty members encompass a wide gamut of sub-disciplines of Electrical Engineering. The research activity of the department includes fundamental research, sponsored & consultancy projects, and is carried out with active participation of the students, faculty & research engineers. Technical excellence in all areas of electrical engineering such as Integrated electronics & circuits, Telecommunications, Computer technology, Control & Automation, Power systems & Power electronics. The faculty of the department has been constantly carrying out research on many technologies and regularly publishes in top international journals.

“ One of the important lessons I have learned is that anyone can become who they want to be. Everyone has the opportunity and chance to succeed. All you need are the guts to do it. Faculty Members and Instructors of Electrical Department of My Lovely College Puran Murti Campus gave not only me, but all of my classmates, the chance to feel powerful & determined. The wonderful environment of Electrical Labs & Presence of well trained staff has taught me the lesson to excel in the field of Electrical Engineering.”

ABHISHEK KUMAR JHA
ELECTRICAL ENGINEERING

“ My Teachers in Puran Murti Campus are world-class and someone I feel I will always be able to turn to for support and advice. I've also been exposed to many academic programs of the highest level. The campus is a real advantage in terms of the number of opportunities available to each student in the department of Electrical Engineering. Alliance with top ranker organizations in the field of Electrical Engineering is very helpful for all the students to pursue a bright career.”

Department of Electronics & Communication Engineering

Electronic devices & communication systems are vital to modern society. They are central to almost all the new and fast-moving technological changes of the 21st Century.

■ Project and Laboratory Work:

A key characteristic of all our programmes is laboratory and project work supported by dedicated electronics, robotics, computing, Satellite Communication and Digital Signal Processing Lab laboratories. Advance Electronic Laboratories with ultra modern equipments of latest developments help our students to engage themselves in development of new projects & technologies. Because of this, Our students often win national prizes for their projects.

■ Research and Teaching:

We have an international reputation for our research in areas including advanced electronics, LEDs, Robotics, Satellite Communication, navigation systems, space weather and imaging. This research feeds into teaching through our group and individual projects in which you can join a research group and in specialist modules that introduce students to cutting-edge engineering.

Department of Mechanical Engineering

Graduates able to work in Mechanical Engineering are in great demand because of their ability to work on complex interdisciplinary projects.

- Develop essential engineering skills through extensive project work.
- Enhance your career prospects with a one year placement in industry.
- Gain an integrated view of engineering and become an expert in the core areas of mechanical engineering.

Subject Aims :

However, 21st Century industries and research laboratories need graduates with interdisciplinary skills who are able to make an immediate contribution to teams working on complex projects. Puran Murti Campus is dedicated to develop such multi-skilled Mechanical Engineers

“It is a best place to have apposite education. It has amiable ambience. Faculty of Institution always pushes you a bit harder which is great for your result. Infrastructure & equipments are in excess to do practical work. Our President Sir has keen interest in providing excellent education and motivating students for further life.”

NISCHAL RANJAN,
MECHANICAL ENGINEERING

“I can firmly say that our college possesses highly experienced teachers and professors, well equipped lab for continuous testing required for technical training, helped us in our academic performance in the semester exams as well as to acquire sound technical knowledge. Moreover, I am also thankful to all our teachers, staffs and respective Director sir for providing us such a quality technical education.”

Diploma in Aircraft Maintenance Engineering (AME) B.Tech in Aircraft Maintenance Engineering (AME)

With knowledge of different types of Aircrafts and all type of engines like Jet Engines and Piston Engines, an AME is very vital to the Aviation Industry and plays very important role in the smooth functioning of Aeroplanes

Aircraft Maintenance Engineering :

An aero-plane is a very complex flying-machine, the design of which takes years of scientific research, testing and evaluation of different design aspects and requires highly sophisticated and state of art system to finally build it. Today Airlines Industry are using subsonic to supersonic high performance wide body jetliners which are built by using 'state of the art' technology and range of special materials including Composites for greater reliability and safety. For continued airworthiness, these flying machines have to be maintained on day-to-day basis by specially trained expert Aircraft Maintenance Engineers and Technicians under strict control of Airworthiness Controlling Authority. In India, AICTE, Government of India authority is empowered to control and guide the Airworthiness process of an Aircraft to maintain highest level of safety.

Department of Computer Applications & Business Study

BBA | BCA

With growing number of companies and rapid industrialization, the scope of Business Administration and Computer Applications is increasing day by day.

"It is a big opportunity to study here with some new inventions and method of learning. The ambience of PMC is the best. The institute focuses on practical knowledge along with theoretical knowledge. It provides a good stage to enhance student's academics and skills. Within only one year, I am feeling great and this is the beginning. I want to thank the teachers and our venerable President Sir Dr. Vijay Pal Nain to make this esteemed college and giving us a good opportunity to study here."

YOGITA SHARMA, BCA

"PMC has given me much more than a sound academic background; it has taught me to be an all-rounded individual. The faculty at PMC is very helpful. They gave us their full attention whenever we needed their guidance. This is a breeding ground for creative students who want much more from their college life."

PREETI, DELHI

Bachelor of Business Administration

The Bachelor of Business Administration is a bachelor's degree in business administration. The BBA program includes general business courses and advanced courses for specific concentrations. The degree helps the graduate to fulfil potential for high earnings, increased responsibility, and greater personal development. The present decade has been labelled as the era of business, business administration and business graduates. The degree is designed to give a broad knowledge of the functional areas of a company, and their interconnection, while also allowing for specialization in a particular area. The degree also develops the student's practical skills, communication skills and business decision-making capability. Many programs thus incorporate training and practical experience, in the form of case projects, presentations, internships, industrial visits, and interaction with experts from the industry.

Bachelor of Computer Applications

Graduates with an information technology background are able to perform technology tasks related to the processing, storing & communication of information between computers, mobile phones & other electronic devices. Generally software and information technology companies look for people who have strong programming system analysis, and software testing skills. Fast growing information technology and communication systems have become critical components of almost every company's strategic plan. Companies which want to take advantage of the new information technologies and communication systems require expert Professionals, who can apply computer science principles to solve problems arising by the interface between business and technology. This is an undergraduate program where students are exposed to various areas of computer applications including the latest developments keeping pace with the industry.

Department of Pharmacy B.Pharmacy, D.Pharmacy, DMLT

Puran Murti College of Pharmacy is the best college of pharmacy with a proclaimed objective of becoming a centre of excellence for advanced studies and research in pharmaceutical sciences. It is an autonomous body set up under the aegis of Department of Pharmaceuticals, Ministry of Chemicals and Fertilizers, Government of India. The Institute is conceived to provide leadership in pharmaceutical sciences and related areas not only within the country, but also to the countries. Pharmacy is the health profession that links the health science with the chemical science and it is charged with ensuring the safe and effective use of medicines.

Pharmacy is not only an occupation, it is now a well recognized profession in most of countries. To become a globally recognized brand in the areas of education and research in pharmaceutical sciences for the benefit of people of India and other countries and the growth of the pharmaceutical industry."

The main objectives of the Institute are :

- Toning up the level of pharmaceutical education and research by training the future teachers, research scientists and managers for the industry and profession.
- Creation of National Centres to cater to the needs of pharmaceutical industries and other research and teaching institutes.
- Collaboration with Indian industries to meet the global challenges
- National/International collaborative research.
- Curriculum and media development.
- Study of sociological aspects of drug 'use and abuse', and rural pharmacy, etc.
- Conducting programmes on drug surveillance, community pharmacy and pharmaceutical management.

Diploma in Medical Lab Technician (DMLT)

Duration: 3 years

Eligibility: The candidate should have passed in 10th Examination from a recognized Board.

Approved by AICTE, Ministry of HRD, Govt. of India & DTE Haryana.

OVERVIEW: The Department of Medical Laboratory Technology is must to develop Technologists primarily concerned with patient's treatment by performing laboratory procedures in Blood Banking, Hematology, Clinical Chemistry, Microbiology and Clinical pathology. Manual dexterity, good eyesight and self discipline are must for this occupation. The varied testing procedures require a skilled and conscientious person.

CAREER OPTIONS: Medical Laboratory Technologists (MLTs) are one of the largest groups of health care professionals, and their career outlook is very positive. While most Medical Laboratory Technologists work in hospitals, educational institutes and private laboratories, MLTs also find challenging employment in other areas. From industrial research and public health laboratories to forensic and pharmaceutical laboratories, the MLT's analytical, scientific and technical skills are a valuable asset. Other career options include:

- Consulting
- Research & Product Development
- Laboratory Information Systems
- Supervision/ Administration/Management
- Public Health/ Infection Control
- Quality Assurance/ Total Quality Improvement
- Sales & Marketing
- Forensic Biological Sciences

Training & Placement Cell

Best Placement in Delhi-NCR 2017

TRAINING & PLACEMENT Overview

The Training and Placement Cell in the college arranges campus selection of students, personality development programmes, training for interviews and competitive examinations, industrial training for students, assistance for higher studies in India and abroad, and other career development schemes.

Objectives

Objective of the Cell is to enhance the professionalism and employability of the students of the college so as to facilitate the achievement of their career goals. This entails the following:

- Augment institution-industry interaction.
- Expose the students to Industrial environments.
- Render the students to participate value-added programmes.
- Assess the aspirations of the students for their chosen field/career.
- Assist the students in realizing their short-term career goals.
- Update the information regarding developmental activities in the various industrial sectors.

The Student Council of the campus took the initiative to form a Group Discussion Club for the students to develop the confidence and skill to tackle group discussions successfully. The club organizes group discussions on a different topical subject every week. Its activities are found to benefit a good section of the students.

Activities

The Training and Placement Cell of the college operates with the active involvement and support of all the staff members and students of the college.

The Cell held periodical meetings to analyze programmes, guide their implementation and evaluates their progress and effectiveness.

In addition, the Announcement Posters from various firms and training agencies are displayed on the notice boards from time to time. A number of talks by experts in the career development field are arranged for the students.

The feed-back from the students on these programmes is effusive and very effective.

Placement

The Placement Cell members visits

different firms at all over India, and Participate in discussions with various firms in the software development, electronic hardware manufacture and engineering fields. Many of them evince interest in providing industrial training and placement to the students of the college.

As a result a number of firms often visit the college and conduct recruitment of the students of the college.

Looking Ahead

Raising the level of information support for the students, wider exposure to the industry, enthusing more students to take the relevant training courses and inculcating the spirit of entrepreneurship in the campus & community are the areas needing further intensity.

Puran Murti Campus is a platform of committed community having spirit of creativity and commitment. This Institute is committed not only to create academic excellence among its students but also to focus on their placement. In the fast changing technological scenario the industries have little time to focus on fresh man power requirement, therefore it becomes mandatory for the institution to design a successful policy in this regard. As a part of the efforts to develop and strengthen the relationship with the corporate world, Puran Murti Campus has delineated long-term strategy to place its students in prestigious organizations. The goal is to help build a long - term career with leading organizations and not to just place the students. It is an integral part of the institute. The institute has provided complete infrastructure for effective functioning of the cell. A well organized training and placement cell is functioning in the Institution with a fulltime dedicated Training and Placement Officer who has long experience in industry - both private and PSU. TPO of Puran Murti Campus maintains a consistent communication with the leading companies for placement of the students. The training deals with making the student feel confident and develop both leadership as well as a managerial quality. The department has developed a work-plan, which includes lectures by the specialist in public speaking, confidence building, stress and time management and attitudinal development.

पीएम कॉलेज को मिला उत्तर भारत का बेस्ट कालेज अवार्ड

सोनीपत : जिले के सब्जीमंडी पर कामी में स्थित पी.एम. 'कॉलेज ऑफ इंजीनियरिंग' को वर्ष 2010 के लिए उत्तर भारत का बेस्ट इन्फ्रस्ट्रक्चर के अवार्ड से नवाजा गया है।

यह अवार्ड पिछले दिनों गुवागंव के होटल काउन पलाजा में आयोजित टाइम रिसर्च एजुकेशन एक्सलेंस अवार्ड 2010 की तरफ से देश के श्रेष्ठ संस्थानों को उनकी सेवा व उपलब्धियों के लिए आयोजित समारोह के दौरान दिया गया। समारोह के दौरान उत्तर भारत के सभी कॉलेजों में से पी.एम. कॉलेज आफ इंजीनियरिंग को उत्तर भारत का बेस्ट इन्फ्रस्ट्रक्चर 2010 के लिए चुना गया। पूर्ण मूर्ति संस्था के अध्यक्ष विजयपाल नैन व पुनम नैन ने पुरस्कार ग्रहण करते हुए इसे लगातार दूसरे साल

की बड़ी उपलब्धि बताया। वर्ष 2009 में इसी कॉलेज को सर्वश्रेष्ठ नवोदित इंजीनियरिंग कॉलेज के लिए चुना गया था। उन्होंने इस उपलब्धि के लिए

कॉलेज के शिक्षकों व विद्यार्थियों की कड़ी मेहनत व लगन का परिणाम बताया और इसके साथ-साथ यह भी विश्वास दिलाया कि शिक्षा के क्षेत्र में सोनीपत का नाम विश्व स्तर पर लाया जाएगा।
